GATE REPORT

As most of you already know, the Gate is in terrible shape. Thanks to Glenn Saich and W. Mazzeo, it is still in life-support. However, it is not long for this world. We have reviewed several gate proposals, both costing about the same money, but with different benefits. Action Committee will present all the proposals to the Board at the presentation on 5/17/17. I will be all week, so sending this report early.

Due to my daughter's wedding festivities, I am unable to attend the Board meeting. Attached is the latest Gate Receipts Report.

Best regards,
